

APPENDIX A

KS1 / KS2 Daily Timetable

Here is a sample timetable that you may want to use to support your child during home learning – your class teacher may have also given you a suggested way to work through the day

- ❖ Please note that on a Monday and Wednesday afternoon the children have group googlemeets timetabled in each week for teaching / instruction on maths or english elements for the week as well as Q&A on work set to eliminate misconceptions as well as a google meet on a Friday morning with quizzes linked to learning to assess ie maths quiz on work from week or spelling test / phonics test and PSHE teaching

- ❖ **Please be aware that these times will be set for the week and your child will not be able to join an alternative meet as we are trying to limit the number of children in each group to improve the experience for all children. We have taken great care not to have any meets that will clash with siblings to enable all children to access their own meet.**

These are fixed times on the timetable and are therefore not flexible.

- ❖ Please note that the children's usual class working environment is not as intense as what they will experience at home and therefore they will not be expected to work for the long sessions as they would during the school day.
- ❖ Please try to break up their focused learning throughout the day with other activities - physical (PE) / online maths / spelling games / colouring / drawing / reading / handwriting practice using spellings / google meets or social media calls with friends to socialise at a break time / playing with their toys

Monday - Thursday

Suggested Time	Activity
08:15 am	Teacher will upload daily English and maths tasks and once a week the foundation subjects. Instructional videos may also be added for children to watch
